

Datasheet for ABIN5692163
anti-Ig lambda antibody (Light Chain)

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	Ig lambda
Binding Specificity:	Light Chain
Reactivity:	Human
Host:	Rat
Clonality:	Monoclonal
Conjugate:	This Ig lambda antibody is un-conjugated
Application:	Immunohistochemistry (Paraffin-embedded Sections) (IHC (p))

Product Details

Clone:	23A1
Isotype:	IgG2a
Purification:	purified IgG

Target Details

Target:	Ig lambda
Abstract:	Ig lambda Products
Background:	Synonyms: Lambda light chain HistoSure™, human lambda light chain, light chain

Application Details

Application Notes:	Optimal working dilution should be determined by the investigator.
--------------------	--

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Lyophilized
---------	-------------

Handling Advice:	Do not store diluted antibody solutions unless you add detergent or carrier proteins such as goat serum, BSA or others. IgG sticks to glass and plastic. Any IgG solution below 0.1 mg/mL protein will quickly adsorb and denature and thus lose activity! Repetitive freeze-thawing of dilute purified IgG is almost certain to lead to substantial losses.
------------------	--

Storage:	-20 °C
----------	--------

Storage Comment:	Unlabeled antibodies are stable in this form without loss of quality at ambient temperatures for several weeks or even months. They can be stored at 4 °C for several years.
