

Datasheet for ABIN5692167
anti-Synapsin III antibody

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Synapsin III (SYN3)
Reactivity:	Mouse, Rat
Host:	Guinea Pig
Clonality:	Polyclonal
Conjugate:	This Synapsin III antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC)

Product Details

Specificity:	Knockout verified
Purification:	antiserum

Target Details

Target:	Synapsin III (SYN3)
Alternative Name:	Synapsin 3 (SYN3 Products)

Application Details

Application Notes:	Optimal working dilution should be determined by the investigator. This product is not tested in IP yet.
Restrictions:	For Research Use only

Handling

Format:	Liquid
Handling Advice:	<p>Crude antisera are more robust than monoclonals. With anti-microbials added, they may be stored at 4 °C.</p> <p>Serum does not contain active proteases, in fact, serum itself contains a powerful cocktail of protease inhibitors. Frozen storage (-20 °C), however, is preferable.</p>
Storage:	4 °C/-20 °C
Storage Comment:	Unlabeled antibodies are stable in this form without loss of quality at ambient temperatures for several weeks or even months. They can be stored at 4 °C for several years.
