Datasheet for ABIN5692181
anti-Clathrin antibody (Light Chain)

Overview

Quantity:	100 µL
Target:	Clathrin
Binding Specificity:	Light Chain
Reactivity:	Rat, Mouse
Host:	Guinea Pig
Clonality:	Polyclonal
Application:	Immunohistochemistry (IHC), Western Blotting (WB), Immunoprecipitation (IP), Immunocytochemistry (ICC), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p))

Product Details

Purification: antiserum

Target Details

Target: Clathrin

Abstract: [Clathrin Products](#)

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format:	Liquid
Handling Advice:	<p>Crude antisera are more robust than monoclonals. With anti-microbials added, they may be stored at 4 °C.</p> <p>Serum does not contain active proteases, in fact, serum itself contains a powerful cocktail of protease inhibitors. Frozen storage (-20 °C), however, is preferable.</p>
Storage:	4 °C/-20 °C
Storage Comment:	Unlabeled antibodies are stable in this form without loss of quality at ambient temperatures for several weeks or even months. They can be stored at 4 °C for several years.
