

Datasheet for ABIN5692193

**anti-Glycine Receptor (GRD) antibody**[Go to Product page](#)

## Overview

Quantity:	50 µg
Target:	Glycine Receptor (GRD)
Reactivity:	Rat, Human, Mouse, Pig, Zebrafish (Danio rerio)
Host:	Rabbit
Clonality:	Monoclonal
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p))

## Product Details

Clone:	RbmAb4a
Isotype:	IgG1
Purification:	purified IgG

## Target Details

Target:	Glycine Receptor (GRD)
Alternative Name:	Glycine receptor ( <a href="#">GRD Products</a> )
Background:	Synonyms: GlyR, Gly-R

## Application Details

Application Notes:	Optimal working dilution should be determined by the investigator. This product is not tested in IP yet.
--------------------	--

## Application Details

---

Restrictions: For Research Use only

## Handling

---

Format: Lyophilized

Handling Advice: Do not store diluted antibody solutions unless you add detergent or carrier proteins such as goat serum, BSA or others. IgG sticks to glass and plastic. Any IgG solution below 0.1 mg/mL protein will quickly adsorb and denature and thus lose activity! Repetitive freeze-thawing of dilute purified IgG is almost certain to lead to substantial losses.

Storage: -20 °C

Storage Comment: Unlabeled antibodies are stable in this form without loss of quality at ambient temperatures for several weeks or even months. They can be stored at 4 °C for several years.
