## Overview

|              |                                                                                 |
|--------------|---------------------------------------------------------------------------------|
| Quantity:    | 100 µg                                                                          |
| Target:      | STK38                                                                           |
| Reactivity:  | Human                                                                           |
| Host:        | Rabbit                                                                          |
| Clonality:   | Polyclonal                                                                      |
| Conjugate:   | This STK38 antibody is un-conjugated                                            |
| Application: | Western Blotting (WB), ELISA, Immunofluorescence (IF), Immunoprecipitation (IP) |

## Product Details

|            |                            |
|------------|----------------------------|
| Immunogen: | serine/threonine kinase 38 |
| Isotype:   | IgG                        |

## Target Details

|                   |                                                                                                                                                                                            |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | STK38                                                                                                                                                                                      |
| Alternative Name: | STK38 ( <a href="#">STK38 Products</a> )                                                                                                                                                   |
| Background:       | Synonyms:NDR1 Background:Negative regulator of MAP3K1/2 signaling. Converts MAP3K2 from its phosphorylated form to its non-phosphorylated form and inhibits autophosphorylation of MAP3K2. |
| Gene ID:          | 11329                                                                                                                                                                                      |
| UniProt:          | <a href="#">Q15208</a>                                                                                                                                                                     |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|         |                                                       |
|---------|-------------------------------------------------------|
| Buffer: | PBS with 0.02 % sodium azide and 50 % glycerol pH 7.3 |
|---------|-------------------------------------------------------|

|               |              |
|---------------|--------------|
| Preservative: | Sodium azide |
|---------------|--------------|

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
|--------------------|------------------------------------------------------------------------------------------------------------------------|

|                  |                                      |
|------------------|--------------------------------------|
| Handling Advice: | Avoid repeated freeze / thaw cycles. |
|------------------|--------------------------------------|

|          |        |
|----------|--------|
| Storage: | -20 °C |
|----------|--------|

|              |           |
|--------------|-----------|
| Expiry Date: | 12 months |
|--------------|-----------|
