

## Datasheet for ABIN572548

### Bovine Spleen Extract

[Go to Product page](#)

#### Overview

Quantity:	1 mL
Host:	Cow

#### Product Details

Protein Source:	Spleen
Purification:	Saline soluble material is extracted from bovine spleens with physiological buffer. Insoluble material is removed by centrifugation and filtration.
Components:	Bovine Spleen Extract
Lysate Type:	Normal

#### Application Details

Application Notes:	The extract is optimized for autoantigen activity in immunodiffusion assays. Each laboratory should determine an optimum working titer for use in its particular
Restrictions:	For Research Use only

#### Handling

Format:	Lyophilized
Buffer:	Lyophilized from 0.01M Phosphate, pH 7.2, 0.02% Sodium azide
Preservative:	Sodium azide
Precaution of Use:	This product contains sodium azide, which has been classified as Xn (Harmful) in European Directive 67/548/EEC in the concentration range of 0.1 - 1.0%. When disposing of this reagent

Handling

---

through lead or copper plumbing, flush with copious volumes of water to prevent azide build-up in drains.

---

Handling Advice:                      Avoid multiple freeze/thaw cycles.

---

Storage:                                      -20 °C

---

Storage Comment:                      Store lyophilized product at -20 °C. After reconstitution, aliquot and store at <-40 °C.
