Datasheet for ABIN5954420

PGA5 Protein

Overview

Quantity:	1 g
Target:	PGA5
Origin:	Pig
Source:	Pig
Protein Type:	Native
Biological Activity:	Active

Product Details

Purpose:	Pepsin A (Porcine), 2x
Characteristics:	Lyophilized. 2x crystalline from dilute alcohol. This product with activity data is belong to bioactive protein.
Purification:	Native protein purified from Porcine Stomach

Target Details

Target:	PGA5
Alternative Name:	LOC396892 (PGA5 Products)
Background:	Full Gene Name: pepsin
Gene ID:	396892

Application Details

Application Notes:	Digestion of antibodies, Preparation of collagen for cosmeceutical purposes, Assessment of digestibility of proteins in food chemistry, Subculture of viable mammary epithelial cells.
Comment:	Native protein purified from Porcine Stomach
Restrictions:	For Research Use only

Handling

Format:	Lyophilized
Handling Advice:	Aliquot to avoid repeated freezing and thawing.
Storage:	4 °C
