

## Datasheet for ABIN5954557 **anti-Gastrin antibody**

[Go to Product page](#)

### Overview

|              |                                                                                |
|--------------|--------------------------------------------------------------------------------|
| Quantity:    | 50 µL                                                                          |
| Target:      | Gastrin (GAST)                                                                 |
| Reactivity:  | Human, Rat                                                                     |
| Host:        | Guinea Pig                                                                     |
| Clonality:   | Polyclonal                                                                     |
| Conjugate:   | This Gastrin antibody is un-conjugated                                         |
| Application: | Immunohistochemistry (IHC), Immunofluorescence (IF), Immunocytochemistry (ICC) |

### Product Details

|                  |                                                                                                                                              |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:       | synthetic human gastrin I, conjugated to BSA                                                                                                 |
| Characteristics: | The antibody was raised against synthetic human gastrin I. Positive staining is found in gastrin-producing endocrine tumors in the pancreas. |

### Target Details

|                   |                                           |
|-------------------|-------------------------------------------|
| Target:           | Gastrin (GAST)                            |
| Alternative Name: | Gastrin ( <a href="#">GAST Products</a> ) |

### Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                  |                                                                                                                                    |
|------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Buffer:          | lyophilized, reconstitute in 100 µL dist. water                                                                                    |
| Storage:         | RT,4 °C,-20 °C                                                                                                                     |
| Storage Comment: | Storage: 4 °C,-20 °C<br>storageComment: short term at 2 - 8 °C, long term storage in aliquots at - 20 °C, avoid freeze/thaw cycles |
