## Overview

|                      |                                         |
|----------------------|-----------------------------------------|
| Quantity:            | 500 µg                                  |
| Target:              | Fetuin A (AHSG)                         |
| Binding Specificity: | AA 18-341                               |
| Reactivity:          | Human                                   |
| Host:                | Mouse                                   |
| Clonality:           | Monoclonal                              |
| Conjugate:           | This Fetuin A antibody is un-conjugated |
| Application:         | ELISA                                   |

## Product Details

|               |                                                                                                                                                                                                                   |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | NS0-derived, recombinant human Fetuin A aa18-341, P02765.                                                                                                                                                         |
| Isotype:      | IgG2b                                                                                                                                                                                                             |
| Specificity:  | Recognizes human Fetuin A. Does not cross-react with rmFetuin A, rhMMP-2, rhMMP-9, recombinant human TGF-beta1, recombinant human TGF-beta2, recombinant human Cathepsin V, or recombinant human BMP-2, -4 or -6. |
| Purification: | Protein G purified                                                                                                                                                                                                |

## Target Details

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Target:           | Fetuin A (AHSG)                                 |
| Alternative Name: | AHSG / Fetuin ( <a href="#">AHSG Products</a> ) |

## Target Details

|             |                                                                                                                                |
|-------------|--------------------------------------------------------------------------------------------------------------------------------|
| Background: | Name/Gene ID: AHSG                                                                                                             |
|             | Synonyms: AHSG, A2HS, Alpha-2-Z-globulin, Fetuin, Fetuin-A, AHS, Alpha-2-HS-glycoprotein, Ba-alpha-2-glycoprotein, FETUA, HSGA |
| Gene ID:    | 197                                                                                                                            |
| UniProt:    | <a href="#">P02765</a>                                                                                                         |

## Application Details

|                    |                                              |
|--------------------|----------------------------------------------|
| Application Notes: | Approved: ELISA (2 - 8 µg/mL)                |
|                    | Usage: Suitable for use in ELISA: 2-8 µg/mL. |
| Comment:           | Target Species of Antibody: Human            |
| Restrictions:      | For Research Use only                        |

## Handling

|                  |                                                                                                                                                                                  |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                                                      |
| Reconstitution:  | Sterile PBS                                                                                                                                                                      |
| Concentration:   | Lot specific                                                                                                                                                                     |
| Buffer:          | Lyophilized from PBS, 5 % trehalose                                                                                                                                              |
| Handling Advice: | Aliquot to Avoid repeated freezing and thawing.                                                                                                                                  |
| Storage:         | -20 °C                                                                                                                                                                           |
| Storage Comment: | Lyophilized powder may be stored at -20°C. Stable for 1 year at -20°C. Aliquot to avoid freeze-thaw cycles. Store at -20°C. Reconstituted product is stable for 1 year at -20°C. |
