## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 100 µg                                |
| Target:              | SORCS3                                |
| Binding Specificity: | AA 1147-1222                          |
| Reactivity:          | Human                                 |
| Host:                | Mouse                                 |
| Clonality:           | Monoclonal                            |
| Conjugate:           | This SORCS3 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA          |

## Product Details

|               |                                                                |
|---------------|----------------------------------------------------------------|
| Immunogen:    | Partial recombinant human SorCS3 (aa1147-1222) with a GST tag. |
| Isotype:      | IgG                                                            |
| Specificity:  | Recognizes human SorCS3.                                       |
| Purification: | Protein G purified                                             |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | SORCS3                                     |
| Alternative Name: | SORCS3 ( <a href="#">SORCS3 Products</a> ) |
| Background:       | Name/Gene ID: SORCS3                       |

### Target Details

|          |                                                 |
|----------|-------------------------------------------------|
|          | Synonyms: SORCS3, KIAA1059, RP11-107L7.1, SORCS |
| Gene ID: | 22986                                           |
| UniProt: | <a href="#">Q9UPU3</a>                          |

### Application Details

|                    |                                                 |
|--------------------|-------------------------------------------------|
| Application Notes: | Approved: ELISA, WB                             |
|                    | Usage: Suitable for use ELISA and Western Blot. |
| Comment:           | Target Species of Antibody: Human               |
| Restrictions:      | For Research Use only                           |

### Handling

|                  |                                                                                                                                                        |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                                                            |
| Reconstitution:  | Sterile ddH2O                                                                                                                                          |
| Concentration:   | Lot specific                                                                                                                                           |
| Buffer:          | Lyophilized from PBS, pH 7.2                                                                                                                           |
| Storage:         | -20 °C                                                                                                                                                 |
| Storage Comment: | Lyophilized powder may be stored at -20°C. Stable for 1 year at -20°C. Reconstituted product is stable for 1 year at -20°C Aliquot and store at -20°C. |
