

Datasheet for ABIN6067991

## **anti-ATP5I antibody (AA 2-69) (Biotin)**

[Go to Product page](#)

### Overview

|                      |                                             |
|----------------------|---------------------------------------------|
| Quantity:            | 100 µL                                      |
| Target:              | ATP5I                                       |
| Binding Specificity: | AA 2-69                                     |
| Reactivity:          | Human                                       |
| Host:                | Rabbit                                      |
| Clonality:           | Polyclonal                                  |
| Conjugate:           | This ATP5I antibody is conjugated to Biotin |
| Application:         | ELISA                                       |

### Product Details

|               |                                                                           |
|---------------|---------------------------------------------------------------------------|
| Immunogen:    | Recombinant human ATP synthase subunit e, mitochondrial protein (2-69AA). |
| Isotype:      | IgG                                                                       |
| Purification: | Protein G                                                                 |

### Target Details

|                   |                                                                                        |
|-------------------|----------------------------------------------------------------------------------------|
| Target:           | ATP5I                                                                                  |
| Alternative Name: | ATP5I ( <a href="#">ATP5I Products</a> )                                               |
| Gene ID:          | 521                                                                                    |
| UniProt:          | <a href="#">P56385</a>                                                                 |
| Pathways:         | <a href="#">Proton Transport</a> , <a href="#">Ribonucleoside Biosynthetic Process</a> |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Buffer:            | 0.01 M PBS, pH 7.4, 0.03 % Proclin-300 and 50 % Glycerol.                                                         |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C,-80 °C                                                                                                     |
| Storage Comment:   | Aliquot and store at -20 °C or -80 °C. Avoid exposure to light. Avoid repeated freeze/thaw cycles.                |
