## Overview

|                      |                                   |
|----------------------|-----------------------------------|
| Quantity:            | 100 µL                            |
| Target:              | CDNA Sequence BC051142 (BC051142) |
| Binding Specificity: | AA 239-476                        |
| Reactivity:          | Human                             |
| Host:                | Rabbit                            |
| Clonality:           | Polyclonal                        |
| Conjugate:           | HRP                               |
| Application:         | ELISA                             |

## Product Details

|               |                                                                        |
|---------------|------------------------------------------------------------------------|
| Immunogen:    | Recombinant human Uncharacterized protein C6orf10 protein (239-476AA). |
| Isotype:      | IgG                                                                    |
| Purification: | Protein G                                                              |

## Target Details

|                   |                                                                                                           |
|-------------------|-----------------------------------------------------------------------------------------------------------|
| Target:           | CDNA Sequence BC051142 (BC051142)                                                                         |
| Alternative Name: | C6orf10 ( <a href="#">BC051142 Products</a> )                                                             |
| Gene ID:          | 10665                                                                                                     |
| UniProt:          | <a href="#">Q5SRN2</a>                                                                                    |
| Pathways:         | <a href="#">Cellular Response to Molecule of Bacterial Origin</a> , <a href="#">Stem Cell Maintenance</a> |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Buffer:            | 0.01 M PBS, pH 7.4, 0.03 % Proclin-300 and 50 % Glycerol.                                                         |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C,-80 °C                                                                                                     |
| Storage Comment:   | Aliquot and store at -20 °C or -80 °C. Avoid exposure to light. Avoid repeated freeze/thaw cycles.                |
