

Datasheet for ABIN6088457

**anti-ROCK2 antibody (AA 1109-1388) (FITC)**[Go to Product page](#)

## Overview

|                      |                                           |
|----------------------|-------------------------------------------|
| Quantity:            | 100 µL                                    |
| Target:              | ROCK2                                     |
| Binding Specificity: | AA 1109-1388                              |
| Reactivity:          | Human                                     |
| Host:                | Rabbit                                    |
| Clonality:           | Polyclonal                                |
| Conjugate:           | This ROCK2 antibody is conjugated to FITC |
| Application:         | ELISA                                     |

## Product Details

|               |                                                                          |
|---------------|--------------------------------------------------------------------------|
| Immunogen:    | Recombinant Human Rho-associated protein kinase 2 protein (1109-1388AA). |
| Isotype:      | IgG                                                                      |
| Purification: | Protein G                                                                |

## Target Details

|                   |                                                                                                       |
|-------------------|-------------------------------------------------------------------------------------------------------|
| Target:           | ROCK2                                                                                                 |
| Alternative Name: | ROCK2 ( <a href="#">ROCK2 Products</a> )                                                              |
| Gene ID:          | 9475                                                                                                  |
| UniProt:          | <a href="#">O75116</a>                                                                                |
| Pathways:         | <a href="#">Microtubule Dynamics</a> , <a href="#">WNT Signaling</a> , <a href="#">Tube Formation</a> |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Buffer:            | 0.01 M PBS, pH 7.4, 0.03 % Proclin-300 and 50 % Glycerol.                                                         |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C,-80 °C                                                                                                     |
| Storage Comment:   | Aliquot and store at -20 °C or -80 °C. Avoid exposure to light. Avoid repeated freeze/thaw cycles.                |
