## Overview

|                      |                                                          |
|----------------------|----------------------------------------------------------|
| Quantity:            | 100 µL                                                   |
| Target:              | CLEC12A                                                  |
| Binding Specificity: | AA 66-265                                                |
| Reactivity:          | Human, Mouse                                             |
| Host:                | Rabbit                                                   |
| Clonality:           | Polyclonal                                               |
| Conjugate:           | This CLEC12A antibody is un-conjugated                   |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC) |

## Product Details

|               |                                                                               |
|---------------|-------------------------------------------------------------------------------|
| Immunogen:    | Recombinant human C-type lectin domain family 12 member A protein (66-265AA). |
| Isotype:      | IgG                                                                           |
| Purification: | Antigen Affinity Chromatography                                               |

## Target Details

|                   |                                              |
|-------------------|----------------------------------------------|
| Target:           | CLEC12A                                      |
| Alternative Name: | CLEC12A ( <a href="#">CLEC12A Products</a> ) |
| Gene ID:          | 160364                                       |
| UniProt:          | <a href="#">Q5QGZ9</a>                       |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

|         |        |
|---------|--------|
| Format: | Liquid |
|---------|--------|

|         |                                                                |
|---------|----------------------------------------------------------------|
| Buffer: | PBS, pH 7.3, containing 0.02 % sodium azide and 50 % Glycerol. |
|---------|----------------------------------------------------------------|

|               |              |
|---------------|--------------|
| Preservative: | Sodium azide |
|---------------|--------------|

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
|--------------------|------------------------------------------------------------------------------------------------------------------------|

|          |               |
|----------|---------------|
| Storage: | -20 °C,-80 °C |
|----------|---------------|

|                  |                                                                           |
|------------------|---------------------------------------------------------------------------|
| Storage Comment: | Aliquot and store at -20 °C or -80 °C. Avoid repeated freeze/thaw cycles. |
|------------------|---------------------------------------------------------------------------|
