## Overview

|                      |                                                                                                     |
|----------------------|-----------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                              |
| Target:              | Caspase 6 (CASP6)                                                                                   |
| Binding Specificity: | Ser257                                                                                              |
| Reactivity:          | Human, Mouse, Rat                                                                                   |
| Host:                | Rabbit                                                                                              |
| Clonality:           | Polyclonal                                                                                          |
| Conjugate:           | This Caspase 6 antibody is un-conjugated                                                            |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), ELISA, Immunofluorescence (fixed cells) (IF/ICC) |

## Product Details

|               |                                                                                               |
|---------------|-----------------------------------------------------------------------------------------------|
| Immunogen:    | Synthesized peptide derived from human Caspase-6 around the non-phosphorylation site of S257. |
| Isotype:      | IgG                                                                                           |
| Purification: | Affinity Chromatography                                                                       |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | Caspase 6 (CASP6)                        |
| Alternative Name: | CASP6 ( <a href="#">CASP6 Products</a> ) |
| Gene ID:          | 839                                      |

## Target Details

|           |                                                         |
|-----------|---------------------------------------------------------|
| UniProt:  | <a href="#">P55212</a>                                  |
| Pathways: | <a href="#">Apoptosis, Caspase Cascade in Apoptosis</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | PBS containing 50 % glycerol, 0.5 % BSA and 0.02 % sodium azide.                                                       |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C,-80 °C                                                                                                          |
| Storage Comment:   | Aliquot and store at -20 °C or -80 °C. Avoid repeated freeze/thaw cycles.                                              |
