## Overview

|                      |                                         |
|----------------------|-----------------------------------------|
| Quantity:            | 100 µL                                  |
| Target:              | MT3                                     |
| Binding Specificity: | AA 1-68                                 |
| Reactivity:          | Human                                   |
| Host:                | Rabbit                                  |
| Clonality:           | Polyclonal                              |
| Conjugate:           | This MT3 antibody is conjugated to FITC |
| Application:         | ELISA                                   |

## Product Details

|               |                                                       |
|---------------|-------------------------------------------------------|
| Immunogen:    | Recombinant Human Metallothionein-3 protein (1-68AA). |
| Isotype:      | IgG                                                   |
| Purification: | Protein G                                             |

## Target Details

|                   |                                                                                                                                                                |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | MT3                                                                                                                                                            |
| Alternative Name: | MT3 ( <a href="#">MT3 Products</a> )                                                                                                                           |
| Gene ID:          | 4504                                                                                                                                                           |
| UniProt:          | <a href="#">P25713</a>                                                                                                                                         |
| Pathways:         | <a href="#">Hormone Transport</a> , <a href="#">Transition Metal Ion Homeostasis</a> , <a href="#">Regulation of Cell Size</a> , <a href="#">Regulation of</a> |

## Target Details

Carbohydrate Metabolic Process, Protein targeting to Nucleus

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                            |
| Buffer:            | 0.01 M PBS, pH 7.4, 0.03 % Proclin-300 and 50 % Glycerol.                                                         |
| Preservative:      | ProClin                                                                                                           |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C,-80 °C                                                                                                     |
| Storage Comment:   | Aliquot and store at -20 °C or -80 °C. Avoid exposure to light. Avoid repeated freeze/thaw cycles.                |
