

## Datasheet for ABIN6121121

### APOA2 Protein

[Go to Product page](#)

#### Overview

|               |                                       |
|---------------|---------------------------------------|
| Quantity:     | 100 µg                                |
| Target:       | APOA2                                 |
| Origin:       | Mouse                                 |
| Source:       | Escherichia coli (E. coli)            |
| Protein Type: | Recombinant                           |
| Application:  | Western Blotting (WB), SDS-PAGE (SDS) |

#### Product Details

|                  |                                         |
|------------------|-----------------------------------------|
| Characteristics: | Mouse Apolipoprotein A2 (APOA2) Protein |
|------------------|-----------------------------------------|

#### Target Details

|                   |                                                                                                                                                                                                                                    |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | APOA2                                                                                                                                                                                                                              |
| Alternative Name: | Apolipoprotein A2 ( <a href="#">APOA2 Products</a> )                                                                                                                                                                               |
| Pathways:         | <a href="#">Regulation of Lipid Metabolism by PPARalpha</a> , <a href="#">Production of Molecular Mediator of Immune Response</a> , <a href="#">Negative Regulation of Transporter Activity</a> , <a href="#">Lipid Metabolism</a> |

#### Application Details

|                    |                                                                                                                                            |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator.                                                                         |
| Comment:           | Please note that the majority of this suppliers proteins are partial length rather than full length.<br>We recommend customers to inquire. |
| Restrictions:      | For Research Use only                                                                                                                      |

## Handling

---

|                    |                                                                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                    |
| Buffer:            | Prior to lyophilization: PBS, pH 7.4, containing 0.01 % SKL, 1 mM DTT, 5 % Trehalose and Proclin-300.                                     |
| Preservative:      | Dithiothreitol (DTT), ProClin                                                                                                             |
| Precaution of Use: | This product contains ProClin and Dithiothreitol (DTT): POISONOUS AND HAZARDOUS SUBSTANCES which should be handled by trained staff only. |
| Storage:           | 4 °C,-80 °C                                                                                                                               |
| Storage Comment:   | Store at 2-8 °C for up to one month. Store at -80 °C for up to one year. Avoid repeated freeze/thaw cycles.                               |
