Datasheet for ABIN614124
anti-Glycated Albumin antibody

Overview

Quantity:	0.1 mg
Target:	Glycated Albumin (GA)
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Glycated Albumin antibody is un-conjugated
Application:	Please inquire

Product Details

Purification:	Affinity purified
---------------	-------------------

Target Details

Target:	Glycated Albumin (GA)
Alternative Name:	Glycated Albumin (GA Products)

Application Details

Restrictions:	For Research Use only
