## Overview

|              |                                                                                                  |
|--------------|--------------------------------------------------------------------------------------------------|
| Quantity:    | 100 µL                                                                                           |
| Target:      | CFTR                                                                                             |
| Reactivity:  | Human, Mouse                                                                                     |
| Host:        | Mouse                                                                                            |
| Clonality:   | Monoclonal                                                                                       |
| Conjugate:   | This CFTR antibody is conjugated to CF®640R                                                      |
| Application: | Immunofluorescence (IF), Immunohistochemistry (IHC), Immunostaining (Ist), Western Blotting (WB) |

## Product Details

|                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Mouse Monoclonal anti-CFTR CFTR/1342), CF640R Conjugate                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Immunogen:       | Recombinant human full-length CFTR                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Clone:           | CFTR-1342                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Isotype:         | IgG2a                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Characteristics: | This antibody recognizes a protein of 165-170 kDa, identified as cystic fibrosis transmembrane conductance regulator (CFTR). CFTR is composed of two membrane-spanning domains (MSD), two nucleotide-binding domains (NBD), and an R domain. It is structurally similar to multidrug resistance (Mdr1) protein and both are members of the superfamily of ATP-binding cassette (ABC) transporters, also known as traffic ATPases, which are implicated in the movement of various substrates. The CFTR protein is a small conductance adenosine 3',5'-cyclic monophosphate (cAMP)-activated chloride ion channel found in the apical membranes of |

## Product Details

epithelia within the pancreas, airway, intestine, bile duct, sweat gland, and male genital ducts. CFTR is a valuable marker of human pancreatic duct cell development and differentiation. Primary antibodies are available purified, or with a selection of fluorescent CF® dyes and other labels. CF® dyes offer exceptional brightness and photostability. Note: Conjugates of blue fluorescent dyes like CF®405S and CF®405M are not recommended for detecting low abundance targets, because blue dyes have lower fluorescence and can give higher non-specific background than other dye colors.
