

Datasheet for ABIN619564

Goat anti-Human IgA (Chain alpha) Antibody

Overview	
Quantity:	1 mg
Target:	IgA
Binding Specificity:	Chain alpha
Reactivity:	Human
Host:	Goat
Clonality:	Polyclonal
Application:	ELISA
Product Details	
Immunogon:	purified human IaA hoovy (alpha chain)

Immunogen:	purified human IgA heavy (alpha chain)
Isotype:	IgG
Fragment:	F(ab')2 fragment
Predicted Reactivity:	human IgA heavy (alpha chain)
Characteristics:	Goat anti-human IgA heavy (alpha chain), F(ab) '2 is a secondary antibody which binds to human IgA heavy (alpha chain), F(ab) '2 fragment in immunological assays.
Purification:	Affinity purification

Target Details

Target:	IgA	
Abstract:	IgA Products	

Target Type: Antibody Application Details Application Notes: needs to be determined by end user Comment: No reactivity is observed to the light chains or non-immunoglobulin human serum proteins based on immunoelectrophoresis. Antibody reacts with the alpha chains on human IgA based on immunoelectrophoresis. Restrictions: For Research Use only Handling Format: Liquid

Store at 2-8°C. Shelf life is one year from date of receipt.
