Ribose 5-Phosphate Isomerase A (RPIA) ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	Ribose 5-Phosphate Isomerase A (RPIA)
Reactivity:	Mouse
Method Type:	Competition ELISA
Detection Range:	1.56 ng/mL - 100 ng/mL
Minimum Detection Limit:	1.56 ng/mL
Application:	ELISA

Product Details

Purpose:	Mouse Ribose-5-phosphate isomerase ELISA Kit is an ELISA kit against Mouse Ribose-5-phosphate isomerase (Rpia).
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric

Target Details

Target:	Ribose 5-Phosphate Isomerase A (RPIA)
Alternative Name:	Ribose-5-phosphate isomerase (RPIA Products)
Pathways:	Cellular Glucan Metabolic Process , Ribonucleoside Biosynthetic Process

Application Details

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
