

## Datasheet for ABIN6200684 **RHD ELISA Kit**

[Go to Product page](#)

### Overview

Quantity:	96 tests
Target:	RHD
Reactivity:	Human
Method Type:	Competition ELISA
Detection Range:	2.47 ng/mL - 200 ng/mL
Minimum Detection Limit:	2.47 ng/mL
Application:	ELISA

### Product Details

Purpose:	Rh Blood Group, D Antigen ELISA Kit is an ELISA Kit against Rh Blood Group, D Antigen.
Sample Type:	Cell Culture Supernatant, Plasma, Serum, Tissue Homogenate
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	< 0.92 ng/mL

### Target Details

Target:	RHD
Alternative Name:	Rh Blood Group, D Antigen ( <a href="#">RHD Products</a> )

## Application Details

---

**Application Notes:**                      **Stability:** The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Standard Form: Lyophilized

---

**Plate:**                                      Pre-coated

---

**Restrictions:**                            For Research Use only

---

## Handling

---

**Storage:**                                 4 °C/-20 °C

---

**Storage Comment:**                    Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

**Expiry Date:**                            6 months

---
