

## Datasheet for ABIN6201380 **ATP2B2 ELISA Kit**

[Go to Product page](#)

### Overview

Quantity:	96 tests
Target:	ATP2B2
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	0.156 ng/mL - 10 ng/mL
Minimum Detection Limit:	0.156 ng/mL
Application:	ELISA

### Product Details

Purpose:	Human Plasma membrane calcium-transporting ATPase 2 ELISA Kit is an ELISA kit against Human Plasma membrane calcium-transporting ATPase 2 (ATP2B2).
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric

### Target Details

Target:	ATP2B2
Alternative Name:	Plasma membrane calcium-transporting ATPase 2 ( <a href="#">ATP2B2 Products</a> )
Pathways:	<a href="#">Sensory Perception of Sound</a> , <a href="#">Regulation of Cell Size</a> , <a href="#">Ribonucleoside Biosynthetic Process</a>

## Application Details

---

Application Notes:                      Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

---

Plate:                                      Pre-coated

---

Restrictions:                            For Research Use only

---

## Handling

---

Storage:                                  4 °C/-20 °C

---

Storage Comment:                      Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

Expiry Date:                              6 months

---
