**Ethanolamine Kinase 2 ELISA Kit**[Go to Product page](#)

## Overview

|                          |                               |
|--------------------------|-------------------------------|
| Quantity:                | 96 tests                      |
| Target:                  | Ethanolamine Kinase 2 (ETNK2) |
| Reactivity:              | Mouse                         |
| Method Type:             | Sandwich ELISA                |
| Detection Range:         | 0.156 ng/mL - 10 ng/mL        |
| Minimum Detection Limit: | 0.156 ng/mL                   |
| Application:             | ELISA                         |

## Product Details

|                    |                                                      |
|--------------------|------------------------------------------------------|
| Purpose:           | Mouse Etnk2 ELISA Kit is an ELISA Kit against Etnk2. |
| Sample Type:       | Plasma, Serum                                        |
| Analytical Method: | Quantitative                                         |
| Detection Method:  | Colorimetric                                         |
| Sensitivity:       | < 0.094 ng/mL                                        |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | Ethanolamine Kinase 2 (ETNK2)            |
| Alternative Name: | ETNK2 ( <a href="#">ETNK2 Products</a> ) |
| UniProt:          | <a href="#">A7MCT6</a>                   |

Application Details

Application Notes:                      Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Standard Form: Lyophilized

Plate:                                      Pre-coated

Restrictions:                              For Research Use only

Handling

Storage:                                    4 °C/-20 °C

Storage Comment:                      Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date:                              6 months
