Application Details

| Application Notes: | Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less | | |
|--------------------|---|--|--|
| | than 5 % within the expiration date under appropriate storage conditions. To minimize | | |
| | performance fluctuations, operation procedures and lab conditions should be strictly controlled. | | |
| | It is also strongly suggested that the whole assay is performed by the same user throughout. | | |
| | Recommended dilutions: Optimal dilutions/concentrations should be determined by the end | | |
| | user. | | |
| | Standard Form: Lyophilized | | |
