

## Datasheet for ABIN6206932

## **PNMA2 CLIA Kit**

## Overview

Abstract:

| Quantity:                   | 96 tests                                                                              |
|-----------------------------|---------------------------------------------------------------------------------------|
| Target:                     | PNMA2                                                                                 |
| Reactivity:                 | Human                                                                                 |
| Method Type:                | Sandwich ELISA                                                                        |
| Detection Range:            | 0.156 ng/mL - 10 ng/mL                                                                |
| Minimum Detection Limit:    | 0.156 ng/mL                                                                           |
| Application:                | ELISA                                                                                 |
| Product Details             |                                                                                       |
| Purpose:                    | Human Paraneoplastic Antigen MA2 (PNMA2) CLIA Kit is a Sandwich CLIA Kit for use with |
|                             | Tissue homogenates and other biological fluids.                                       |
| Sample Type:                | Tissue Homogenate                                                                     |
| Analytical Method:          | Quantitative                                                                          |
| Detection Method:           | Chemiluminescent                                                                      |
|                             |                                                                                       |
| Sensitivity:                | < 0.058 ng/mL                                                                         |
| Sensitivity: Target Details | < 0.058 ng/mL                                                                         |
|                             | < 0.058 ng/mL PNMA2                                                                   |

PNMA2 Products

## **Application Details**

| Application Notes: | Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less |
|--------------------|-------------------------------------------------------------------------------------------------------|
|                    | than 5 % within the expiration date under appropriate storage conditions. To minimize                 |
|                    | performance fluctuations, operation procedures and lab conditions should be strictly controlled.      |
|                    | It is also strongly suggested that the whole assay is performed by the same user throughout.          |
|                    | Recommended dilutions: Optimal dilutions/concentrations should be determined by the end               |
|                    | user.                                                                                                 |
|                    | Standard Form: Lyophilized                                                                            |
| Plate:             | Pre-coated                                                                                            |
| Restrictions:      | For Research Use only                                                                                 |
|                    |                                                                                                       |
| Handling           |                                                                                                       |
| Storage:           | 4 °C/-20 °C                                                                                           |
| Storage Comment:   | Upon receipt, store the kit according to the storage instruction in the kit's manual.                 |
| Expiry Date:       | 6 months                                                                                              |
