**Senataxin (SETX) ELISA Kit**

[Go to Product page](#)

## Overview

Quantity:	96 tests
Target:	Senataxin (SETX)
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	0.156 ng/mL - 10 ng/mL
Minimum Detection Limit:	0.156 ng/mL
Application:	ELISA

## Product Details

Purpose:	Human SETX ELISA Kit is an ELISA Kit against SETX.
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	< 0.094 ng/mL

## Target Details

Target:	Senataxin (SETX)
Alternative Name:	SETX ( <a href="#">SETX Products</a> )
UniProt:	<a href="#">Q7Z333</a>

## Application Details

---

Application Notes:                      Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Standard Form: Lyophilized

---

Plate:                                        Pre-coated

---

Restrictions:                              For Research Use only

---

## Handling

---

Storage:                                    4 °C/-20 °C

---

Storage Comment:                        Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

Expiry Date:                               6 months

---
