

Datasheet for ABIN6219187 **LITAF ELISA Kit**

[Go to Product page](#)

Overview

Quantity: 96 tests

Target: LITAF

Reactivity: Human

Method Type: Sandwich ELISA

Detection Range: 78 pg/mL - 5000 pg/mL

Minimum Detection Limit: 78 pg/mL

Application: ELISA

Product Details

Purpose: Human Lipopolysaccharide-induced tumor necrosis factor-alpha factor ELISA Kit is an ELISA kit against Human Lipopolysaccharide-induced tumor necrosis factor-alpha factor (LITAF).

Sample Type: Plasma, Serum

Analytical Method: Quantitative

Detection Method: Colorimetric

Target Details

Target: LITAF

Alternative Name: Lipopolysaccharide-induced tumor necrosis factor-alpha factor ([LITAF Products](#))

Pathways: [Cellular Response to Molecule of Bacterial Origin](#)

Application Details

Application Notes: **Stability:** The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
