

## Datasheet for ABIN6221905 **TGFBR3 ELISA Kit**

[Go to Product page](#)

### Overview

|                          |                        |
|--------------------------|------------------------|
| Quantity:                | 96 tests               |
| Target:                  | TGFBR3                 |
| Reactivity:              | Mouse                  |
| Method Type:             | Sandwich ELISA         |
| Detection Range:         | 0.156 ng/mL - 10 ng/mL |
| Minimum Detection Limit: | 0.156 ng/mL            |
| Application:             | ELISA                  |

### Product Details

|                    |                                                                                                                                                        |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:           | Mouse Transforming growth factor beta receptor type 3 ELISA Kit is an ELISA kit against Mouse Transforming growth factor beta receptor type 3 (Tgfr3). |
| Sample Type:       | Plasma, Serum                                                                                                                                          |
| Analytical Method: | Quantitative                                                                                                                                           |
| Detection Method:  | Colorimetric                                                                                                                                           |

### Target Details

|                   |                                                                                     |
|-------------------|-------------------------------------------------------------------------------------|
| Target:           | TGFBR3                                                                              |
| Alternative Name: | Transforming growth factor beta receptor type 3 ( <a href="#">TGFBR3 Products</a> ) |

## Application Details

---

Application Notes:                      Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

---

Plate:                                      Pre-coated

---

Restrictions:                            For Research Use only

---

## Handling

---

Storage:                                  4 °C/-20 °C

---

Storage Comment:                      Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

Expiry Date:                              6 months

---
