

## Datasheet for ABIN6228609 **GCKR ELISA Kit**

[Go to Product page](#)

### Overview

Quantity: 96 tests

Target: GCKR

Reactivity: Human

Method Type: Sandwich ELISA

Detection Range: 0.625 ng/mL - 40 ng/mL

Minimum Detection Limit: 0.625 ng/mL

Application: ELISA

### Product Details

Purpose: Human Glucokinase Regulatory Protein ELISA Kit is an ELISA Kit against Glucokinase Regulatory Protein.

Sample Type: Plasma, Serum

Analytical Method: Quantitative

Detection Method: Colorimetric

Sensitivity: 0.375 ng/mL

### Target Details

Target: GCKR

Alternative Name: Glucokinase Regulatory Protein ([GCKR Products](#))

Pathways: [Carbohydrate Homeostasis](#), [Regulation of Carbohydrate Metabolic Process](#), [Protein targeting to](#)

## Target Details

---

Nucleus

## Application Details

---

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Standard Form: Lyophilized

---

Plate: Pre-coated

---

Restrictions: For Research Use only

## Handling

---

Storage: 4 °C/-20 °C

---

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

Expiry Date: 6 months
