

## Datasheet for ABIN6228635 **PTPRO ELISA Kit**

[Go to Product page](#)

### Overview

Quantity:	96 tests
Target:	PTPRO
Reactivity:	Rat
Method Type:	Sandwich ELISA
Detection Range:	1.56 ng/mL - 100 ng/mL
Minimum Detection Limit:	1.56 ng/mL
Application:	ELISA

### Product Details

Purpose:	Rat PTPRO ELISA Kit is an ELISA Kit against PTPRO .
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	0.938 ng/mL

### Target Details

Target:	PTPRO
Alternative Name:	PTPRO ( <a href="#">PTPRO Products</a> )
Pathways:	<a href="#">Cell-Cell Junction Organization</a>

## Application Details

---

**Application Notes:**                      **Stability:** The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Standard Form: Lyophilized

---

**Plate:**                                      Pre-coated

---

**Restrictions:**                            For Research Use only

---

## Handling

---

**Storage:**                                 4 °C/-20 °C

---

**Storage Comment:**                    Upon receipt, store the kit according to the storage instruction in the kit's manual.

---

**Expiry Date:**                            6 months

---
