

## Datasheet for ABIN6229064

### AATK ELISA Kit

[Go to Product page](#)

#### Overview

Quantity:	96 tests
Target:	AATK
Reactivity:	Mouse
Method Type:	Sandwich ELISA
Detection Range:	1.56 ng/mL - 100 ng/mL
Minimum Detection Limit:	1.56 ng/mL
Application:	ELISA

#### Product Details

Purpose:	Mouse Apoptosis Associated Tyrosine Kinase ELISA Kit is an ELISA Kit against Apoptosis Associated Tyrosine Kinase.
Sample Type:	Plasma, Serum
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	0.938 ng/mL

#### Target Details

Target:	AATK
Alternative Name:	Apoptosis Associated Tyrosine Kinase ( <a href="#">AATK Products</a> )
Pathways:	<a href="#">RTK Signaling, Regulation of Cell Size</a>

Application Details

Application Notes:                      Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Standard Form: Lyophilized

Plate:                                      Pre-coated

Restrictions:                            For Research Use only

Handling

Storage:                                  4 °C/-20 °C

Storage Comment:                      Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date:                              6 months
