CASK ELISA Kit

[Go to Product page](#)

Overview

Quantity:	96 tests
Target:	CASK
Reactivity:	Human
Method Type:	Sandwich ELISA
Detection Range:	0.313 ng/mL - 20 ng/mL
Minimum Detection Limit:	0.313 ng/mL
Application:	ELISA

Product Details

Purpose:	Human Calcium/Calmodulin Dependent Serine Protein Kinase (CASK) ELISA Kit is an ELISA kit against Calcium/Calmodulin Dependent Serine Protein Kinase (CASK).
Analytical Method:	Quantitative
Detection Method:	Colorimetric
Sensitivity:	< 0.19 ng/mL

Target Details

Target:	CASK
Alternative Name:	Calcium/Calmodulin Dependent Serine Protein Kinase (CASK) (CASK Products)
UniProt:	O14936
Pathways:	Synaptic Vesicle Exocytosis

Application Details

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Standard Form: Lyophilized

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
