Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less				
	than 5 % within the expiration date under appropriate storage conditions. To minimize				
	performance fluctuations, operation procedures and lab conditions should be strictly controlled.				
	It is also strongly suggested that the whole assay is performed by the same user throughout.				
	Recommended dilutions: Optimal dilutions/concentrations should be determined by the end				
	user.				
Plate:	Pre-coated				
Restrictions:	For Research Use only				
Handling					
Storage:	4 °C/-20 °C				
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.				
Expiry Date:	6 months
