Application Details

Application Notes:	Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less			
	than 5 $\%$ within the expiration date under appropriate storage conditions. To minimize			
	performance fluctuations, operation procedures and lab conditions should be strictly controlled.			
	It is also strongly suggested that the whole assay is performed by the same user throughout.			
	Recommended dilutions: Optimal dilutions/concentrations should be determined by the end			
	user.			
Plate:	Pre-coated			
Restrictions:	For Research Use only			
Handling				
Storage:	4 °C/-20 °C			
Storage Comment:	Upon receipt, store the kit according to the storage instruction in the kit's manual.			
Expiry Date:	6 months
