## Datasheet for ABIN6243474 anti-ALK antibody (C-Term)

Image

#### Overview

Quantity:	200 µL
Target:	ALK
Binding Specificity:	AA 1466-1500, C-Term
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This ALK antibody is un-conjugated
Application:	Western Blotting (WB)

#### Product Details

Immunogen:	This ALK antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 1466-1500 amino acids from the C-terminal region of human ALK.
Clone:	RB50500
Isotype:	Ig Fraction
Purification:	This antibody is purified through a protein A column, followed by peptide affinity purification.

#### Target Details

Target:	ALK
Alternative Name:	ALK (ALK Products)
Background:	Neuronal orphan receptor tyrosine kinase that is essentially and transiently expressed in

specific regions of the central and peripheral nervous systems and plays an important role in
the genesis and differentiation of the nervous system. Transduces signals from ligands at the
cell surface, through specific activation of the mitogen-activated protein kinase (MAPK)
pathway. Phosphorylates almost exclusively at the first tyrosine of the Y-x-x-X-Y-Y motif.
Following activation by ligand, ALK induces tyrosine phosphorylation of CBL, FRS2, IRS1 and
SHC1, as well as of the MAP kinases MAPK1/ERK2 and MAPK3/ERK1. Acts as a receptor for
ligands pleiotrophin (PTN), a secreted growth factor, and midkine (MDK), a PTN-related factor,
thus participating in PTN and MDK signal transduction. PTN-binding induces MAPK pathway
activation, which is important for the anti-apoptotic signaling of PTN and regulation of cell
proliferation. MDK-binding induces phosphorylation of the ALK target insulin receptor substrate
(IRS1), activates mitogen-activated protein kinases (MAPKs) and PI3-kinase, resulting also in
cell proliferation induction. Drives NF-kappa-B activation, probably through IRS1 and the
activation of the AKT serine/threonine kinase. Recruitment of IRS1 to activated ALK and the
activation of NF-kappa-B are essential for the autocrine growth and survival signaling of MDK.

Molecular Weight:	176442
UniProt:	Q9UM73
Pathways:	RTK Signaling

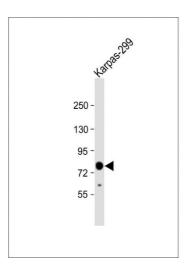

### Application Details

Application Notes:	WB: 1:2000
Restrictions:	For Research Use only

#### Handling

Format:	Liquid
Buffer:	Purified polyclonal antibody supplied in PBS with 0.09 % (W/V) sodium azide.
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	4 °C,-20 °C
Expiry Date:	6 months
