Datasheet for ABIN6243476 anti-ALK antibody (C-Term)

1 Image

1 Publication

Overview

| Quantity: | 400 µL |
|----------------------|---|
| Target: | ALK |
| Binding Specificity: | AA 1591-1620, C-Term |
| Reactivity: | Human |
| Host: | Rabbit |
| Clonality: | Polyclonal |
| Conjugate: | This ALK antibody is un-conjugated |
| Application: | Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

Product Details

| Immunogen: | This ALK antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 1591~1620 amino acids from the C-terminal region of human ALK. |
|---------------|--|
| Clone: | RB1513-1514 |
| Isotype: | Ig Fraction |
| Purification: | This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS. |

Target Details

| Target: | ALK |
|-------------------|--------------------|
| Alternative Name: | ALK (ALK Products) |

| Target Details | |
|---------------------|---|
| Background: | ALK, a member of the insulin receptor subfamily of Tyr protein kinases, is an orphan receptor. I appears to play an important role in the normal development and function of the nervous |
| | system. This Type I membrane protein is expressed in brain and CNS and in the small intestine |
| | and testis, but not in normal lymphoid cells. A form of non-Hodgkin's lymphoma is |
| | characterized by a chromosomal translocation t(2,5)(p23,q35) that involves NPM1 and ALK. |
| | The protein contains 1 LDL-receptor class A domain and 2 putative MAM domains. |
| Molecular Weight: | 176442 |
| NCBI Accession: | NP_004295 |
| UniProt: | Q9UM73 |
| Pathways: | RTK Signaling |
| Application Details | |
| Application Notes: | IHC-P: 1:50~100 |
| Restrictions: | For Research Use only |
| Handling | |
| Format: | Liquid |
| Buffer: | Purified polyclonal antibody supplied in PBS with 0.09 % (W/V) sodium azide. |
| Preservative: | Sodium azide |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage: | 4 °C,-20 °C |
| | 6 months |
| Expiry Date: | o months |

Images

Immunohistochemistry (Paraffin-embedded Sections)

Image 1. Formalin-fixed and paraffin-embedded human cancer tissue reacted with the primary antibody, which was peroxidase-conjugated to the secondary antibody, followed by AEC staining. This data demonstrates the use of this antibody for immunohistochemistry, clinical relevance has not been evaluated. BC = breast carcinoma, HC = hepatocarcinoma.
