# Datasheet for ABIN6259256 anti-PPP1R7 antibody (C-Term)

2 Images

#### Overview

| Quantity:            | 100 μL                                                                           |
|----------------------|----------------------------------------------------------------------------------|
| Target:              | PPP1R7                                                                           |
| Binding Specificity: | C-Term                                                                           |
| Reactivity:          | Human                                                                            |
| Host:                | Rabbit                                                                           |
| Clonality:           | Polyclonal                                                                       |
| Conjugate:           | This PPP1R7 antibody is un-conjugated                                            |
| Application:         | Western Blotting (WB), ELISA, Immunofluorescence (IF), Immunocytochemistry (ICC) |

## Product Details

| Immunogen:            | A synthesized peptide derived from human PPP1R7, corresponding to a region within C-terminal amino acids.                              |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Isotype:              | lgG                                                                                                                                    |
| Specificity:          | PPP1R7 Antibody detects endogenous levels of total PPP1R7.                                                                             |
| Predicted Reactivity: | Pig,Bovine,Rabbit                                                                                                                      |
| Purification:         | The antiserum was purified by peptide affinity chromatography using SulfoLink <sup>TM</sup> Coupling Resin (Thermo Fisher Scientific). |

Target Details

Target:

PPP1R7

### Target Details

| Alternative Name: | PPP1R7 (PPP1R7 Products)                                                  |
|-------------------|---------------------------------------------------------------------------|
| Background:       | Description: Regulatory subunit of protein phosphatase 1.<br>Gene: PPP1R7 |
| Molecular Weight: | 48 kDa                                                                    |
| Gene ID:          | 5510                                                                      |
| UniProt:          | Q15435                                                                    |

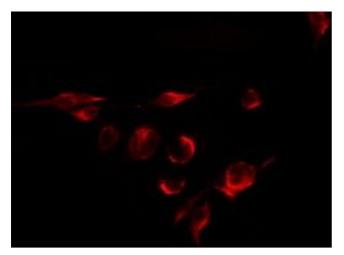

### **Application Details**

| Application Notes: | WB 1:500-1:1000, IF/ICC 1:100-1:500, ELISA(peptide) 1:20000-1:40000                                                    |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Restrictions:      | For Research Use only                                                                                                  |
| Handling           |                                                                                                                        |
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | Rabbit IgG in phosphate buffered saline , pH 7.4, 150 mM NaCl, 0.02 % sodium azide and 50 % glycerol.                  |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20 °C. Stable for 12 months from date of receipt.                                                            |
| Expiry Date:       | 12 months                                                                                                              |

### Western Blotting

**Image 1.** Western blot analysis of extracts from HUVEC cells, using PPP1R7 antibody.

#### Immunofluorescence (fixed cells)

**Image 2.** ABIN6275412 staining HuvEc by IF/ICC. The sample were fixed with PFA and permeabilized in 0.1% Triton X-100,then blocked in 10% serum for 45 minutes at 25jãC. The primary antibody was diluted at 1/200 and incubated with the sample for 1 hour at 37jãC. An Alexa Fluor 594 conjugated goat anti-rabbit IgG (H+L) Ab, diluted at 1/600, was used as the secondary antibod
