# Datasheet for ABIN6259497 anti-RFWD2 antibody (Internal Region)

3 Images

### Overview

| Quantity:            | 100 μL  |
|----------------------|---|
| Target:              | RFWD2   |
| Binding Specificity: | Internal Region   |
| Reactivity:          | Human, Mouse, Rat   |
| Host:                | Rabbit  |
| Clonality:           | Polyclonal  |
| Conjugate:           | This RFWD2 antibody is un-conjugated  |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunofluorescence (IF),<br>Immunocytochemistry (ICC) |

## Product Details

| Immunogen:            | A synthesized peptide derived from human RFWD2, corresponding to a region within the internal amino acids.                             |
|-----------------------|--|
| Isotype:              | lgG  |
| Specificity:          | RFWD2 Antibody detects endogenous levels of total RFWD2.   |
| Predicted Reactivity: | Bovine,Chicken   |
| Purification:         | The antiserum was purified by peptide affinity chromatography using SulfoLink <sup>TM</sup> Coupling Resin (Thermo Fisher Scientific). |

| Target Details      |   |
|---------------------|---|
| Alternative Name:   | RFWD2 (RFWD2 Products)  |
| Background:         | Description: E3 ubiquitin-protein ligase that mediates ubiquitination and subsequent              |
|                     | proteasomal degradation of target proteins. E3 ubiquitin ligases accept ubiquitin from an E2      |
|                     | ubiquitin-conjugating enzyme in the form of a thioester and then directly transfers the ubiquitin |
|                     | to targeted substrates. Involved in JUN ubiquitination and degradation. Directly involved in p53  |
|                     | (TP53) ubiquitination and degradation, thereby abolishing p53-dependent transcription and         |
|                     | apoptosis. Ubiquitinates p53 independently of MDM2 or RCHY1. Probably mediates E3                 |
|                     | ubiquitin ligase activity by functioning as the essential RING domain subunit of larger E3        |
|                     | complexes. In contrast, it does not constitute the catalytic RING subunit in the DCX DET1-COP1    |
|                     | complex that negatively regulates JUN, the ubiquitin ligase activity being mediated by RBX1.      |
|                     | Involved in 14-3-3 protein sigma/SFN ubiquitination and proteasomal degradation, leading to       |
|                     | AKT activation and promotion of cell survival. Ubiquitinates MTA1 leading to its proteasomal      |
|                     | degradation. Upon binding to TRIB1, ubiquitinates CEBPA, which lacks a canonical COP1-            |
|                     | binding motif (Probable).   |
|                     | Gene: RFWD2   |
| Molecular Weight:   | 80 kDa  |
| Gene ID:            | 64326   |
| UniProt:            | Q8NHY2  |
| Pathways:           | Photoperiodism  |
| Application Details |   |
| Application Notes:  | WB 1:500-1:1000, IF/ICC 1:100-1:500, IHC 1:50-1:200, ELISA(peptide) 1:20000-1:40000               |
| Restrictions:       | For Research Use only   |
| Handling            |   |
| Format:             | Liquid  |
| Concentration:      | 1 mg/mL   |
| Buffer:             | Rabbit IgG in phosphate buffered saline , pH 7.4, 150 mM NaCl, 0.02 % sodium azide and 50 %       |
|                     | glycerol.   |
| Preservative:       | Sodium azide  |
| Precaution of Use:  | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which                     |

### Handling

|                  | should be handled by trained staff only.                    |
|------------------|---|
| Storage:         | -20 °C  |
| Storage Comment: | Store at -20 °C. Stable for 12 months from date of receipt. |
| Expiry Date:     | 12 months   |

### Images

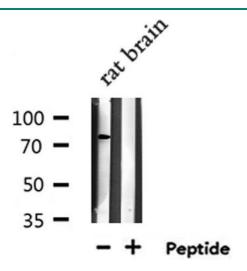

#### Immunofluorescence (fixed cells)

**Image 1.** ABIN6275092 staining Hela cells by IF/ICC. The sample were fixed with PFA and permeabilized in 0.1% Triton X-100,then blocked in 10% serum for 45 minutes at 25jãC. The primary antibody was diluted at 1/200 and incubated with the sample for 1 hour at 37jãC. An Alexa Fluor 594 conjugated goat anti-rabbit IgG (H+L) antibody(Cat.# S0006), diluted at 1/600, was used as secondary antibod

### Western Blotting

**Image 2.** Western blot analysis of extracts from LOVO cells, using RFWD2 antibody.
