Quantity:	100 μL
Target:	UBA52
Binding Specificity:	Internal Region
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This UBA52 antibody is un-conjugated
Application:	Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunofluorescence (IF)

Product Details

lmmunogen:	A synthesized peptide derived from human UBA52, corresponding to a region within the internal amino acids.
Isotype:	IgG
Specificity:	UBA52 Antibody detects endogenous levels of total UBA52.
Predicted Reactivity:	Pig,Zebrafish,Bovine,Horse,Sheep,Dog,Chicken,Xenopus
Purification:	The antiserum was purified by peptide affinity chromatography using SulfoLink TM Coupling Resin (Thermo Fisher Scientific).

Target Details

|--|

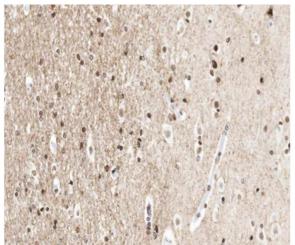

Target Details

Alternative Name:	UBA52 (UBA52 Products)
Background:	Description: Ubiquitin: Exists either covalently attached to another protein, or free (unanchored).
	When covalently bound, it is conjugated to target proteins via an isopeptide bond either as a
	monomer (monoubiquitin), a polymer linked via different Lys residues of the ubiquitin
	(polyubiquitin chains) or a linear polymer linked via the initiator Met of the ubiquitin (linear
	polyubiquitin chains). Polyubiquitin chains, when attached to a target protein, have different
	functions depending on the Lys residue of the ubiquitin that is linked: Lys-6-linked may be
	involved in DNA repair, Lys-11-linked is involved in ERAD (endoplasmic reticulum-associated
	degradation) and in cell-cycle regulation, Lys-29-linked is involved in lysosomal degradation,
	Lys-33-linked is involved in kinase modification, Lys-48-linked is involved in protein degradation
	via the proteasome, Lys-63-linked is involved in endocytosis, DNA-damage responses as well as
	in signaling processes leading to activation of the transcription factor NF-kappa-B. Linear
	polymer chains formed via attachment by the initiator Met lead to cell signaling. Ubiquitin is
	usually conjugated to Lys residues of target proteins, however, in rare cases, conjugation to Cys
	or Ser residues has been observed. When polyubiquitin is free (unanchored-polyubiquitin), it
	also has distinct roles, such as in activation of protein kinases, and in signaling.
	Gene: UBA52
Molecular Weight:	8kDa
Gene ID:	7311
UniProt:	P62987
Pathways:	Fc-epsilon Receptor Signaling Pathway, EGFR Signaling Pathway, Neurotrophin Signaling
	Pathway, Activation of Innate immune Response, Mitotic G1-G1/S Phases, DNA Replication,
	Pathway, Activation of Innate immune Response, Mitotic G1-G1/S Phases, DNA Replication, Toll-Like Receptors Cascades, Synthesis of DNA, EGFR Downregulation
Application Details	
Application Details Application Notes:	
	Toll-Like Receptors Cascades, Synthesis of DNA, EGFR Downregulation
Application Notes:	Toll-Like Receptors Cascades, Synthesis of DNA, EGFR Downregulation IHC 1:50-1:200, WB 1:500-1:2000, IF/ICC 1:100-1:500, ELISA(peptide) 1:20000-1:40000
Application Notes: Restrictions: Handling	Toll-Like Receptors Cascades, Synthesis of DNA, EGFR Downregulation IHC 1:50-1:200, WB 1:500-1:2000, IF/ICC 1:100-1:500, ELISA(peptide) 1:20000-1:40000
Application Notes: Restrictions:	Toll-Like Receptors Cascades, Synthesis of DNA, EGFR Downregulation IHC 1:50-1:200, WB 1:500-1:2000, IF/ICC 1:100-1:500, ELISA(peptide) 1:20000-1:40000 For Research Use only

Handling

	glycerol.
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	-20 °C
Storage Comment:	Store at -20 °C. Stable for 12 months from date of receipt.
Expiry Date:	12 months

Immunohistochemistry

Image 1. ABIN6266670 at 1/100 staining human brain tissue sections by IHC-P. The tissue was formaldehyde fixed and a heat mediated antigen retrieval step in citrate buffer was performed. The tissue was then blocked and incubated with the antibody for 1.5 hours at 22°C. An HRP conjugated goat anti-rabbit antibody was used as the secondary.

Western Blotting

Image 2. Western blot analysis of extracts from 293 and mouse lung, using Ubiquitin Antibody.
