## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 50 µL                               |
| Target:              | EBI3 (IL-27b)                       |
| Binding Specificity: | AA 101-150, Internal Region         |
| Reactivity:          | Human, Mouse                        |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This EBI3 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA        |

## Product Details

|               |                                                                                                                       |
|---------------|-----------------------------------------------------------------------------------------------------------------------|
| Purpose:      | Rabbit polyclonal to Ebi3.                                                                                            |
| Immunogen:    | Synthesized peptide derived from human Ebi3.                                                                          |
| Isotype:      | IgG                                                                                                                   |
| Specificity:  | Ebi3 Polyclonal Antibody detects endogenous levels of Ebi3 protein.                                                   |
| Purification: | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | EBI3 (IL-27b)                            |
| Alternative Name: | Ebi3 ( <a href="#">IL-27b Products</a> ) |

### Target Details

|              |                        |
|--------------|------------------------|
| Target Type: | Viral Protein          |
| Gene ID:     | 10148                  |
| UniProt:     | <a href="#">Q14213</a> |

### Application Details

|                    |                                  |
|--------------------|----------------------------------|
| Application Notes: | WB 1:500-1:2000<br>ELISA 1:10000 |
| Restrictions:      | For Research Use only            |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | Liquid in PBS containing 50 % glycerol, 0.5 % BSA and 0.02 % sodium azide.                                             |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C, and avoid repeat freeze-thaw cycles.                                                                   |
