

Datasheet for ABIN6281039

**anti-BCAP31 antibody (Internal Region)**[Go to Product page](#)

## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 50 µL                                 |
| Target:              | BCAP31                                |
| Binding Specificity: | AA 120-200, Internal Region           |
| Reactivity:          | Human, Mouse, Rat                     |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This BCAP31 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA          |

## Product Details

|               |                                                                                                                       |
|---------------|-----------------------------------------------------------------------------------------------------------------------|
| Purpose:      | Rabbit polyclonal to BAP31.                                                                                           |
| Immunogen:    | Synthesized peptide derived from human BAP31                                                                          |
| Isotype:      | IgG                                                                                                                   |
| Specificity:  | BAP31 Polyclonal Antibody detects endogenous levels of BAP31 protein.                                                 |
| Purification: | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|                   |                                           |
|-------------------|-------------------------------------------|
| Target:           | BCAP31                                    |
| Alternative Name: | BAP31 ( <a href="#">BCAP31 Products</a> ) |

### Target Details

|                   |                                                               |
|-------------------|---------------------------------------------------------------|
| Molecular Weight: | 28 kDa                                                        |
| Gene ID:          | 10134                                                         |
| UniProt:          | <a href="#">P51572</a>                                        |
| Pathways:         | <a href="#">Positive Regulation of Endopeptidase Activity</a> |

### Application Details

|                    |                                                                       |
|--------------------|-----------------------------------------------------------------------|
| Application Notes: | WB 1:500-1:2000<br>ELISA 1:40000                                      |
| Comment:           | Ubiquitous. Highly expressed in neurons and discrete endocrine cells. |
| Restrictions:      | For Research Use only                                                 |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | Liquid in PBS containing 50 % glycerol, 0.5 % BSA and 0.02 % sodium azide.                                             |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C, and avoid repeat freeze-thaw cycles.                                                                   |
