## Overview

|                      |                                                                                                                    |
|----------------------|--------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 50 µL                                                                                                              |
| Target:              | DFFA                                                                                                               |
| Binding Specificity: | AA 120-200, Internal Region                                                                                        |
| Reactivity:          | Human, Mouse, Rat                                                                                                  |
| Host:                | Rabbit                                                                                                             |
| Clonality:           | Polyclonal                                                                                                         |
| Conjugate:           | This DFFA antibody is un-conjugated                                                                                |
| Application:         | Western Blotting (WB), ELISA, Immunofluorescence (IF), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

## Product Details

|               |                                                                                                                       |
|---------------|-----------------------------------------------------------------------------------------------------------------------|
| Purpose:      | Rabbit polyclonal to ICAD.                                                                                            |
| Immunogen:    | Synthesized peptide derived from human ICAD                                                                           |
| Isotype:      | IgG                                                                                                                   |
| Specificity:  | ICAD Polyclonal Antibody detects endogenous levels of ICAD protein.                                                   |
| Purification: | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|         |      |
|---------|------|
| Target: | DFFA |
|---------|------|

## Target Details

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Alternative Name: | ICAD ( <a href="#">DFFA Products</a> )                  |
| Molecular Weight: | 36 kDa                                                  |
| Gene ID:          | 1676                                                    |
| UniProt:          | <a href="#">O00273</a>                                  |
| Pathways:         | <a href="#">Apoptosis, Caspase Cascade in Apoptosis</a> |

## Application Details

|                    |                                                                        |
|--------------------|------------------------------------------------------------------------|
| Application Notes: | WB 1:500-1:2000<br>IHC 1:100-1:300<br>IF 1:200-1:1000<br>ELISA 1:20000 |
| Restrictions:      | For Research Use only                                                  |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | Liquid in PBS containing 50 % glycerol, 0.5 % BSA and 0.02 % sodium azide.                                             |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C, and avoid repeat freeze-thaw cycles.                                                                   |
