**anti-RAD54B antibody (Internal Region)**[Go to Product page](#)

## Overview

|                      |                                                                    |
|----------------------|--------------------------------------------------------------------|
| Quantity:            | 50 µL                                                              |
| Target:              | RAD54B                                                             |
| Binding Specificity: | AA 210-290, Internal Region                                        |
| Reactivity:          | Human                                                              |
| Host:                | Rabbit                                                             |
| Clonality:           | Polyclonal                                                         |
| Conjugate:           | This RAD54B antibody is un-conjugated                              |
| Application:         | ELISA, Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

## Product Details

|               |                                                                                                                       |
|---------------|-----------------------------------------------------------------------------------------------------------------------|
| Purpose:      | Rabbit polyclonal to Rad54B.                                                                                          |
| Immunogen:    | Synthesized peptide derived from human Rad54B                                                                         |
| Isotype:      | IgG                                                                                                                   |
| Specificity:  | Rad54B Polyclonal Antibody detects endogenous levels of Rad54B protein.                                               |
| Purification: | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | RAD54B                                     |
| Alternative Name: | Rad54B ( <a href="#">RAD54B Products</a> ) |

## Target Details

Molecular Weight: 102.967 kDa

Gene ID: 25788

UniProt: [Q9Y620](#)

## Application Details

Application Notes: IHC 1:100-1:300  
ELISA 1:10000

Comment: Abundantly expressed in testis and spleen. Relatively low levels observed in thymus, prostate, ovary and colon.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 1 mg/mL

Buffer: Liquid in PBS containing 50 % glycerol, 0.5 % BSA and 0.02 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: Store at -20°C, and avoid repeat freeze-thaw cycles.
