## Overview

|                      |                                                                                           |
|----------------------|-------------------------------------------------------------------------------------------|
| Quantity:            | 50 µL                                                                                     |
| Target:              | SERPING1                                                                                  |
| Binding Specificity: | AA 320-400, Internal Region                                                               |
| Reactivity:          | Human                                                                                     |
| Host:                | Rabbit                                                                                    |
| Clonality:           | Polyclonal                                                                                |
| Conjugate:           | This SERPING1 antibody is un-conjugated                                                   |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

## Product Details

|               |                                                                                                                       |
|---------------|-----------------------------------------------------------------------------------------------------------------------|
| Purpose:      | Rabbit polyclonal to C1INH.                                                                                           |
| Immunogen:    | Synthesized peptide derived from human C1INH                                                                          |
| Isotype:      | IgG                                                                                                                   |
| Specificity:  | C1INH Polyclonal Antibody detects endogenous levels of C1INH protein.                                                 |
| Purification: | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|                   |                                             |
|-------------------|---------------------------------------------|
| Target:           | SERPING1                                    |
| Alternative Name: | C1INH ( <a href="#">SERPING1 Products</a> ) |

## Target Details

|                   |                                   |
|-------------------|-----------------------------------|
| Molecular Weight: | 55 kDa                            |
| Gene ID:          | 710                               |
| UniProt:          | <a href="#">P05155</a>            |
| Pathways:         | <a href="#">Complement System</a> |

## Application Details

|                    |                                                     |
|--------------------|-----------------------------------------------------|
| Application Notes: | WB 1:500-1:2000<br>IHC 1:100-1:300<br>ELISA 1:40000 |
| Restrictions:      | For Research Use only                               |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 1 mg/mL                                                                                                                |
| Buffer:            | Liquid in PBS containing 50 % glycerol, 0.5 % BSA and 0.02 % sodium azide.                                             |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C, and avoid repeat freeze-thaw cycles.                                                                   |
