Product Details

Immunogen:	Recombinant protein of human NICN1
Isotype:	IgG
Purification:	Affinity purification

Target Details

Target:	NICN1
Alternative Name:	NICN1 (NICN1 Products)
Background:	This protein encoded by this gene localizes to the nucleus and is expressed in numerous
	tissues including brain, testis, liver, and kidney. This refseq contains genomic sequence in its 3'
	UTR which is not supported by experimental evidence. Computer predictions indicate that this
	region of the 3' UTR contains hairpin-forming self-complementary sequence which is possibly
	excised after transcription. This gene has a pseudogene on chromosome X.
