## Overview

|              |                                      |
|--------------|--------------------------------------|
| Quantity:    | 20 µL                                |
| Target:      | SAAL1                                |
| Reactivity:  | Human, Mouse, Rat                    |
| Host:        | Rabbit                               |
| Clonality:   | Polyclonal                           |
| Conjugate:   | This SAAL1 antibody is un-conjugated |
| Application: | Western Blotting (WB)                |

## Product Details

|               |                                    |
|---------------|------------------------------------|
| Immunogen:    | Recombinant Protein of human SAAL1 |
| Isotype:      | IgG                                |
| Purification: | Affinity purification              |

## Target Details

|                   |                                                |
|-------------------|------------------------------------------------|
| Target:           | SAAL1                                          |
| Alternative Name: | SAAL1 ( <a href="#">SAAL1 Products</a> )       |
| Molecular Weight: | 53.558 kDa                                     |
| Gene ID:          | 113174                                         |
| UniProt:          | <a href="#">Q96ER3</a>                         |
| Pathways:         | <a href="#">SARS-CoV-2 Protein Interactome</a> |

## Application Details

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Application Notes: | WB 1:500 - 1:2000                                                                                                 |
| Comment:           | Highly expressed in testis and ovary, and to a lesser extend in the lung, spleen and the heart (at protein level) |
| Restrictions:      | For Research Use only                                                                                             |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Buffer:            | PBS with 0.02 % sodium azide, 50 % glycerol, pH 7.3.                                                                   |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20C. Avoid freeze / thaw cycles.                                                                             |

### Western Blotting

**Image 1.** Western blot analysis of extracts of various cell lines, using SAAL1 antibody (ABIN6293922) at 1:3000 dilution. Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) at 1:10000 dilution. Lysates/proteins: 25ug per lane. Blocking buffer: 3% nonfat dry milk in TBST. Detection: ECL Enhanced Kit. Exposure time: 10s.
