#### Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µL                               |
| Target:              | CNOT6                                |
| Binding Specificity: | N-Term                               |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This CNOT6 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                |

#### Product Details

|               |                                                                                                                                                       |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | CNOT6 antibody was raised using the N terminal of CNOT6 corresponding to a region with amino acids EISGKVRSLASLWLSLTHLTALHLSDNSLSRIPSDIAKLHNLVYLDLSSN |
| Specificity:  | CNOT6 antibody was raised against the N terminal of CNOT6                                                                                             |
| Purification: | Affinity purified                                                                                                                                     |

#### Target Details

|                   |                                                                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | CNOT6                                                                                                                                               |
| Alternative Name: | CNOT6 ( <a href="#">CNOT6 Products</a> )                                                                                                            |
| Background:       | CNOT6 is a subunit of the CCR4-NOT core transcriptional regulation complex. CNOT6 has a 3'-5' RNase activity and prefers polyadenylated substrates. |

## Target Details

---

Molecular Weight: 63 kDa (MW of target protein)

## Application Details

---

Application Notes: WB: 1 µg/mL  
Optimal conditions should be determined by the investigator.

Comment: CNOT6 Blocking Peptide, catalog no. 33R-2486, is also available for use as a blocking control in assays to test for specificity of this CNOT6 antibody

Restrictions: For Research Use only

## Handling

---

Format: Lyophilized

Reconstitution: Lyophilized powder. Add distilled water for a 1 mg/mL concentration of CNOT6 antibody in PBS

Concentration: Lot specific

Buffer: PBS

Handling Advice: Avoid repeated freeze/thaw cycles.  
Dilute only prior to immediate use.

Storage: 4 °C/-20 °C

Storage Comment: Store at 2-8 °C for short periods. For longer periods of storage, store at -20 °C.
