## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 100 µL                              |
| Target:              | HHAT                                |
| Binding Specificity: | N-Term                              |
| Reactivity:          | Human, Mouse                        |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This HHAT antibody is un-conjugated |
| Application:         | Western Blotting (WB)               |

## Product Details

|               |                                                                                                                                                    |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | HHAT antibody was raised using the N terminal of HHAT corresponding to a region with amino acids MLPRWELALYLLASLGFHFYSFYEVYKVSREHEEELDQFELETDTLFGG |
| Specificity:  | HHAT antibody was raised against the N terminal of HHAT                                                                                            |
| Purification: | Affinity purified                                                                                                                                  |

## Target Details

|                   |                                                                                                                                           |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | HHAT                                                                                                                                      |
| Alternative Name: | HHAT ( <a href="#">HHAT Products</a> )                                                                                                    |
| Background:       | Skinny hedgehog' (SKI1) encodes an enzyme that acts within the secretory pathway to catalyze amino-terminal palmitoylation of 'hedgehog'. |

## Target Details

Molecular Weight: 57 kDa (MW of target protein)

Pathways: [Hedgehog Signaling](#)

## Application Details

Application Notes: WB: 1 µg/mL

Optimal conditions should be determined by the investigator.

Comment: HHAT Blocking Peptide, catalog no. 33R-6202, is also available for use as a blocking control in assays to test for specificity of this HHAT antibody

Restrictions: For Research Use only

## Handling

Format: Lyophilized

Reconstitution: Lyophilized powder. Add distilled water for a 1 mg/mL concentration of HHAT antibody in PBS

Concentration: Lot specific

Buffer: PBS

Handling Advice: Avoid repeated freeze/thaw cycles.  
Dilute only prior to immediate use.

Storage: 4 °C/-20 °C

Storage Comment: Store at 2-8 °C for short periods. For longer periods of storage, store at -20 °C.
