## Target Details

Target:	RANBP17
Alternative Name:	RanBP17 ( <a href="#">RANBP17 Products</a> )
Background:	Nucleo-cytoplasmic transport receptors all directly interact with RanGTP to modulate the compartment-specific binding of their transport substrates. RanBP17 is a novel RanGTP-binding protein that interacts with the nuclear pore complex and is able to enter the nucleus independent of energy and additional nuclear transport receptors.
